

MANEUVER FROM LAGGING TO LEADING WORKFORCE SCHEDULING & DEPLOYMENT

HELPING LABS & TESTING AND TRACING CENTRES TO THRIVE

We are helping **labs and testing/tracing centres** by leveraging our deep experience with building Master Rotations and designing strategic scheduling operations.

We understand the **unique challenges with bench work**, the requirements of having a variety of Techs with very specific skill sets that must be routinely applied, paired with training needs considerations, and how to balance equity in the scheduling environment. We are able to provide **rapid schedule builds, ensuring high workability and quality** including compliance to interim budgets and collective agreements given extended hours. The ability to seamlessly engage and produce quality rotations quickly is critical to addressing increasing service demands.

We know your organizations are under immense pressure to optimize resources and we are here to help.

Workforce Edge is a health service organization that specializes in strategic scheduling and workforce deployment. We are working with our health partners in the following capacity:

- **Rapid building of staff schedules** to accommodate increase hours.
- **Strategic problem-solving consultations** with our executive leadership to offer quick and agile expertise and solutions now.
- **Customized, quick and easy scheduling processes and workflows** to address increased demand on schedulers and unique new workflows.
- Assistance with **tracking employees, their payments, skills, and return to regular work assignments**.
- **Staffing, demand and workforce analytics** to model projections on surge scenarios for immediate, short- and longer-term timelines.
